#### [Economic Snapshot](#)

Hispanic Business has named 26 New Mexico businesses to its annual list of the 500 largest Hispanic-owned companies in the U.S. The magazine reports that the 500 firms represent combined revenue of \$31.9 billion, a 5.7 percent increase from 2009. The June 2011 edition list is based on revenue earned in 2010.

Hispanic companies made "gains, but a balky economy continues to indicate recovery is not on a fast track," wrote the magazine in its cover article that starts on page 28.

The New Mexico businesses were ranked as follows (NR means they were not ranked on the 2010 list) :
